9 October 2012	East Midlands Ambulance Service Consultation	Resolution agreed: "This committee believes that the principle of reorganisation advocated, based on a system of dispersal, is very sound however there are a number of errors and problems with presentation. Presentation needs to be much clearer (including the feedback form and the maps) if the public is to understand it. The committee also felt that given the principle of dispersal and fast response more information on the number and types of ambulances and investment in them is required. The committee also stressed concerns about catering for major emergencies for example on the A1 road and east coast mainline railway or tourism along the coast in the summer (seasonal adjustment). The Committee expressed concern that consultation sessions may not be available to people who work because of their timings and suggested that additional events should also be scheduled to allow all interested parties to take place in the consultation exercise." Rep to be invited to the next meeting
