Commentary The following sites for new council homes are progressing as detailed below; Swinegate, new housing development comprising up to 20 units, works have begun on site. There has been a delay to the start due to moving some utilities and expanding the entrance to Watergate car park (which will be done in November). The costs for the scheme have increased to £4m but the budget is approved and committed. Elizabeth Road, development of 4 homes in Stamford, works are commencing in November 23. Larch Close, development of 21 homes, planning application has been submitted and expecting determination at the November planning committee. procurement of the scheme can then commence, aiming for a contractor to commence in summer 2024. Other sites being progressed including Wellington Way, Market Deeping and Kesteven Rd, Stamford. ▲ Commentary The Planning team operates a pre-application advice service which includes Design PAD. Design PAD is a monthly meeting that brings together different disciplines to provide feedback on development proposals. The aim is to improve design quality and bringing people together is an efficient and effective way of achieving the desired results. Collaboration between the key disciplines such as planning, highways, local lead flood authority, the drainage board, urban design, conservation and landscape. The Design PAD is also used in relation to planning applications. In the period July-September 2023, one scheme was approved at Committee, Phase 10b Elsea Park (S22/1240). We used Building for a Healthy Life (BfHL) as a negotian tool over a period of 12 months, with many improvements made to the scheme over this time. The BfHL score was increased fom being predominantly reds and ambers to the final scheme being scored as 6 greens and 6 ambers (subject to Conditions).
