Evaluation Decision

Once consultation and practicable and proportionate mitigation has been put in place, the responsible officer should evaluate whether any negative impact remains and, if so, provide justification for any decision to proceed.		
Question	Explanation / justification	
Is it possible the proposed policy or activity or change in policy or activity could discriminate or unfairly disadvantage people?		
Final Decision	Tick	Include any explanation/justification required
1. No barriers identified, therefore activity will proceed	X	
2. Stop the policy or practice because the data shows bias towards one or more groups		
3. Adapt or change the policy in a way that will eliminate the bias		

<p>4. Barriers and impact identified, however having considered all available options carefully, there appear to be no other proportionate ways to achieve the aim of the policy or practice (e.g. in extreme cases or where positive action is taken). Therefore you are going to proceed with caution with this policy or practice knowing that it may favour some people less than others, providing justification for this decision</p>
