3. Details of Report

The council tax base is used to calculate how much each property will be charged to cover the net costs of the district council and the precepting authorities. The total net expenditure is divided by the council tax base to give the amount paid by individual households. The council tax base is calculated in line with Government regulations.

Council tax requires that all domestic properties are placed in one of eight valuation bands (Bands A-H). The Government has determined the council tax level for each property is assessed as a proportion of tax rate for a band D property.
