14. Notices of Motion

a) Councillor Amanda Wheeler

The UK's current voting system (known as First Past the Post) originated when land-owning aristocrats dominated parliament and voting was restricted to property-owning men.

Currently in Europe, only the UK and authoritarian Belarus still use the archaic single-round FPTP for general elections. Meanwhile, internationally, Proportional Representation (PR) is used to elect parliaments in more than 80 countries. These countries tend to be more equal, freer and greener. Under PR, MPs and Parliaments better reflect the age, gender and protected characteristics of local communities and the nation. MPs better reflecting their communities leads to improved decision-making, wider participation and increased levels of ownership of decisions taken.

Proportional Representation ensures all votes count, have equal value, and those seats won match votes cast.

PR would also end minority rule. In 2019, 43.6% of the vote produced a government with 56.2% of the seats and 100% of the power.

PR is already used to elect the parliaments and assemblies of Scotland, Wales and Northern Ireland. So why not Westminster?

South Kesteven District Council therefore resolves to write to Government calling for a change in our outdated electoral laws to enable Proportional Representation to be used for general elections.

b) Councillor Phil Dilks
