

South Kesteven Local Plan

Schedule of Proposed Main Modifications

Published **xxxx**

FOR CONSULTATION ONLY

South Kesteven Local Plan – Schedule of Proposed Main Modifications

Introduction

The Local Plan was submitted to the Secretary of State on January 15th 2019, and Hearing Sessions were conducted by Government appointed Inspector David Spencer in May 2019. Sections 20 and 23 of the Planning and Compulsory Purchase Act 2004 (as amended, *inter alia*, by the Localism Act 2011) make provision for modifications to be made to a Local Plan, from the Submitted Local Plan and before it is adopted.

In legal terminology there are two types of modifications, 'main' and 'additional'. The additional modifications are commonly referred to as 'minor' modifications, to more clearly distinguish them from 'main modifications'. This schedule includes proposed main modifications.

Proposed Main Modifications

Main modifications are modifications which are necessary to make the Submitted Local Plan 'sound', and therefore enable the Local Plan to be adopted. A local planning authority must ask the Inspector to recommend such main modifications. South Kesteven District Council asked Inspector David Spencer to recommend modifications within a letter sent to the Inspector on 11 March 2019 (ref. [EX/SKDC/11](#) within the Examination Library).

Whilst the Inspector can recommend 'main modifications', it is common practice for the local planning authority to suggest what those main modifications could be. The reasons why a local planning authority might suggest such main modifications are:

- Because a local planning authority itself has spotted something in (or missing from) the Submitted Local Plan which appears to be 'unsound', and wishes the Inspector to recommend a modification to correct it; and/or
- Because, as part of the ongoing examination process, it appears to both the Inspector and the local planning authority that an amendment is necessary, and therefore the Inspector asks the local planning authority to make a suggestion as to what an amendment might be.

The first column of the schedule is the reference number of the suggested modification. Also included is cross-reference to the Inspector's Action Points (ref. [EX/INS/21](#) within the Examination Library). The second, third, fourth and fifth columns show the relevant section, policy, paragraph and page number to easily reference the modification. The sixth column cross-references any main modifications proposed to the Policies Maps. The seventh and eight columns detail the proposed modifications and the justification for it, and the ninth column identifies whether the modification should be subject to Sustainability Appraisal, in the opinion of the Council. The schedule is ordered by page number.

Proposed main modifications to the Local Plan policies and text is denoted by ~~strikethrough of deleted text~~; and newly inserted text is **underlined and in bold**.

Determining whether a Sustainability Appraisal is required

The Main Modifications will be screened for their likely significance in terms of impact on the Sustainability Objectives. Significant modifications in terms of the SA are considered to be changes that altered the focus of the policy, insertion of additional policy criteria or changes that placed a greater emphasis on certain elements of a policy.

- Non-significant modifications in terms of the SA were considered to be grammatical corrections, updated information, changes for improved clarity and/or changes to re-structure a policy but with no additions or deletions to text.
- Changes considered to be significant require re-visiting the previous SA work and considering whether the previous scoring and commentaries are still relevant and valid. Any new policies introduced into the Local Plan as a result of the proposed main modifications will require SA.

Commenting upon the Main Modifications

Any representations received on this schedule of Proposed Modifications, and the accompanying Policy Map Modifications, will be carefully considered by the Inspector prior to their report being finalised, and prior to the Local Plan being formally adopted.

Representations should only be made on the modifications as set out in this document. This is not a consultation on the full Local Plan.

Please send all representations (making it clear that it is a representation on this consultation document, and what aspect you are commenting upon) to:

Email: planningpolicy@southkesteven.gov.uk

Schedule of Proposed Main Modifications

New MM Reference (ordered by page number)	Section of Proposed Submission Version	Sub Section/Policy	Paragraph	Page No.	Proposals Map Ref.	Proposed Main Modification	Justification	SA
MM1 AP70	(iv) Summary	Planning for population changes		15		<p>Amend text on page 15;</p> <p>This population growth and the likely changes to households have been used to produce an assessment of the number of additional homes required in the District up to 2036. The assessed need is based on the Peterborough Sub-Region Strategic Housing Market Assessment (SHMA), which covers the period 2011 to 2036. This provides a minimum requirement for the new Local Plan to allocate sufficient land to enable an average of <u>650</u> 625 homes per annum, <u>uplifted from 625 from 2016</u>, to be built over the period 2011-36. This equates to <u>16,125</u> 15,625 new homes in the plan period. Taking account of homes already completed and already planned for, there is a remaining amount of around <u>3,400</u> 6,909 homes to be provided for in the new Local Plan, as a minimum.</p> <p>Our aim is for the majority of all planned housing development to be focused upon growing Grantham in order to support and indeed strengthen its role as a Sub-regional Centre.</p> <p>Given their role as market towns with a range of services and facilities, the Local Plan also proposes new development in Stamford, Bourne and the Deepings.</p> <p>A review of the Larger Villages (formerly Local Service Centres) has been undertaken and the results show that Castle Bytham no longer has sufficient services and facilities to be classified as one. Fifteen Larger Villages have been identified and following a detailed site assessment process thirteen <u>eleven</u> sites have been identified as potential housing allocations. In addition to these allocations, the plan supports sensitive infill housing development within the built-up part of settlements and the redevelopment of previously developed sites in all fifteen Larger Villages.</p>	Factual Update to reflect amended Housing Need and Housing land supply.	No
MM2	General			18		<p>Include a statement within the Local Plan (added to paragraph 1.2) and Policies Map: '<u>This Local Plan replaces both the Core Strategy and Site Allocations & Policies DPD'</u></p>	Legal Compliance	No
MM3	1. South Kesteven Local Plan 2011-2036	What does the Local Plan mean in terms of growth for South Kesteven.	1.9 – 1.11	19		<p>1.9 This Proposed Submission Local Plan (June 2017) is based on housing growth in relation to the 'Objectively Assessed Need' (OAN). The OAN considered the need for market, affordable, and other tenures of housing across the District. The OAN has been determined through the preparation of a Strategic Housing Market Assessment (SHMA) (July 2014) <u>March 2017</u> for the Peterborough sub-regional housing market area which includes the adjoining local authorities of South Holland, Peterborough and Rutland. Some elements of the SHMA, including the OAN figure, were refreshed in a report published in October 2015. The OAN increases from 625 to 650 dwellings per year from 2016 to take into account market signals, this equates to a requirement for 16,125 15,625 new homes across the period 2011 to 2036. As completions over the period April 2011 to March 2018 have been considerably below this average, there is a requirement for the Local Plan to plan for 686 dwellings per annum as a minimum for the remainder of the plan period to 2036.</p> <p>1.10 In September 2017, the Government published a consultation document entitled "Planning for the right homes in the right places", which has the intention of moving away from localised methods of calculating housing need and instead focusing on a national standardised methodology for calculating 'local housing need'. However, the Government's proposals as set out in the consultation on the revised NPPF allow for the</p>	Incorrect figure. Local Plan housing requirement is set out through Policy SP1.	No

New MM Reference (ordered by page number)	Section of Proposed Submission Version	Sub Section/Policy	Paragraph	Page No.	Proposals Map Ref.	Proposed Main Modification	Justification	SA									
						<p>Council to use its own evidence of housing need, based on the lower minimum assessed need of 625<ins>650</ins> dwellings per annum, <u>uplifted from 625 from 2016</u>, for the period 2011 to 2036.</p> <p>1.11 Whilst the Proposed Submission Local Plan is based on the Council's own evidence of housing need, <u>the Plan contains a supply of housing it is intended to plan for housing growth of around 18 13% above the minimum required to deliver the OAN and Local Plan requirement of 16,125 new homes up to 2036. This will provide choice and consistency in housing provision and also address the under performance of the housing market in recent years.</u> As any future review of the Local Plan will need to take account of the Government's proposed standardised methodology, the <u>supply of housing planned level of growth</u> as set out in this plan will ease any transition that will need to be in place at the first review of the Local Plan.</p>											
MM4 AP70	1. South Kesteven Local Plan 2011-2036	Challenges for the Local Plan to address		33		<p>Amend text in table on page 33;</p> <table border="1"><thead><tr><th>Economic Challenges</th><th>Social Challenges</th><th>Environmental Challenges</th></tr></thead><tbody><tr><td><ul style="list-style-type: none">High levels of car dependency and outward community by South Kesteven residents</td><td><ul style="list-style-type: none">625<ins>650</ins> new homes, <u>uplifted from 625 from 2016</u>, are needed annually over the period 2011-2036 to meet our Objectively Assessed Need (OAN)</td><td><ul style="list-style-type: none">Need to protect and enhance local wildlife, its habitats and important natural features</td></tr><tr><td>.....</td><td></td><td></td></tr></tbody></table>	Economic Challenges	Social Challenges	Environmental Challenges	<ul style="list-style-type: none">High levels of car dependency and outward community by South Kesteven residents	<ul style="list-style-type: none">625<ins>650</ins> new homes, <u>uplifted from 625 from 2016</u>, are needed annually over the period 2011-2036 to meet our Objectively Assessed Need (OAN)	<ul style="list-style-type: none">Need to protect and enhance local wildlife, its habitats and important natural features			Factual Update to reflect amended Housing Need and Housing land supply. MM5 AP70	1. South Kesteven Local Plan 2011-2036	Creating Sustainable Communities	1.60	36		<p>Amend text of paragraph 1.60 as below;</p> <p>1.60 There is an assessed requirement for 15,625<ins>16,125</ins> additional new dwellings in South Kesteven from the period 2011 to 2036. The Local Plan allocates suitable sites to meet this housing requirement and will provide a trajectory which indicates how much housing development is expected to take place in each year of the plan period. The number of older people living in the District is expected to increase significantly over the plan period - this has significant implications for meeting housing, health and care needs, which the plan needs to positively respond to. There will be a need to plan for self-build and custom house building and to meet any requirements for assisted home purchase as well as Affordable Housing schemes currently available as well as any that may be introduced by the Government.</p>	Factual Update to reflect amended Housing Need and Housing land supply.	No									
MM6 AP74	Strategic Objectives for the Local Plan	Strategic Objectives for the Local Plan	Table after paragraph 1.73	45		<p>Include additional objective in the table after paragraph 1.73 of the Local Plan's strategic objectives as below;</p> <p><u>Objective 15 To minimise pollution which affects health and wellbeing</u></p>	To enable air quality to be reflected in the strategic objectives of the plan.	Yes									
MM7 AP2	Strategic Objectives for the Local Plan			45		<p>Include Key Diagram (EX/SKDC/25) (appendix 2) into the Strategic Objectives for the Local Plan section, under the Strategic Objectives as follows:</p>	To accord with national policy	No									

New MM Reference (ordered by page number)	Section of Proposed Submission Version	Sub Section/Policy	Paragraph	Page No.	Proposals Map Ref.	Proposed Main Modification	Justification	SA
						1.74 The diagram below indicates the broad spatial strategy for the Local Plan, and its context. The reasoned justifications for this is detailed in subsequent plan chapters.		
MM8 AP8	2. Planning Policies for South Kesteven	SD1 presumption in Favour of Sustainable Development		46		Modification is proposed to remove Policy SD1 from the Local Plan	Policy repeats what is stated within the NPPF	Yes
MM9 AP9	2. Planning Policies for South Kesteven	SD2 The Principles of Sustainable Development in South Kesteven		47		Insert an additional bullet point after bullet point e to read: f. the pollution of air, land, water, noise and light.	To respond to comments made by the GLNP (SKR319) and to ensure consistency with para 109 of the NPPF.	Yes
MM10 A22	Spatial Strategy and Settlement Hierarchy	Assessing Local Housing Need	2.2 – 2.6	48		Amend supporting text (paragraphs 2.2-2.6) of Policy SP1 as follows; 2.2 The Local Plan needs to <u>make provision to meet the full objectively assessed need for market and affordable housing over the plan period</u> . proactively plan for the future provision of new housing. The population of South Kesteven District is expected to grow by over 26,000 residents by 2036. <u>The plan translates the and that growth in population into a need for a particular number of new homes, which it then distributes in a sustainable pattern across the whole of</u> is translated into a need for additional new housing throughout the district. 2.3 Previously the Core Strategy adopted in 2010 set out a requirement for 13,600 new homes from the period 2006 to 2026. This equated to a minimum requirement of providing an average of 680 new homes annually. By February 2018, 680 new homes have been completed against the Core Strategy's target figure of 13,600 with the average annual rate of completions being approximately 640 dwellings per annum over the Core Strategy plan period. 2.34 Since the Core Strategy was adopted, the <u>The National Planning Policy Framework was published by the Government in March 2012</u> . has been <u>It introduced a particular emphasis on significantly boosting the supply of land for housing, which is to be delivered through a 'plan-led' planning system</u> . A new series of new household and population projections have also been published, which enable the Council to form an accurate and up to date picture of the district's population and the way in which it is likely to change by 2036. Specifically, that information has been fed into a Strategic Housing Market Assessment (March 2017), to derive South Kesteven's and other changes made to national planning policy. In addition, new population projections incorporating changes to the District's demographic profile have been produced. The SHMA update (2017) has used these latest population figures in order to produce an Objectively Assessed Need of 16,125 new for South Kesteven as 625 dwellings <u>across</u> per annum, for the period 2011 to 2036. <u>To ensure the Objectively Assessed Need is met in full, the This equates to a minimum Local Plan requirement for South Kesteven is to provide an additional 15,625 16,125 dwellings across new homes over the plan period 2011 to 2036, equating to 650 dwellings per annum after applying an uplift from 625 in 2016 to take into account market signals.</u>	For clarity regarding buffer of the housing supply and to update of figures in line with Objectively Assessed Need.	No

New MM Reference (ordered by page number)	Section of Proposed Submission Version	Sub Section/Policy	Paragraph	Page No.	Proposals Map Ref.	Proposed Main Modification	Justification	SA		
						<p>2.54 Since 2011, there have been 3,839 <u>4506</u> housing completions. Details on housing completions are recorded in the five-year housing land supply assessment <u>dated May 2019</u>.</p> <p>2.5 Whilst the housing requirement is based on the Objectively Assessed Need, the Plan trajectory (which indicated broadly when and how much housing the Council expects to be delivered) contains a “buffer” of around 18% above the minimum required to deliver the Local Plan requirement of 16,125 new homes up to 2036. The purpose of the buffer is to provide developers with a greater choice of sites and a contingency in case some which are included in the supply are not delivered within the timeframes anticipated. This should help insure the Council delivers at least the full requirement.</p> <p>2.6 Based on the context, vision and objectives of the Local Plan, Policy SP1 sets out the overarching spatial strategy for the Local Plan. This is then followed by Policy SP2 Settlement hierarchy. <u>Taken together, they indicate how the total number of new homes that are to be built will be distributed across the whole district to achieve a sustainable pattern of development.</u></p>				
MM11 AP12	Spatial Strategy and Settlement Hierarchy	Policy SP1: Spatial Strategy		49		<p>Amend Policy SP1 as below;</p> <p>SP1: Spatial Strategy</p> <p>The Local Plan will deliver sustainable growth across the District and throughout the Plan Period (2011 – 2036). To achieve new growth the Local Plan includes allocations for both housing and employment land.</p> <p>All allocations proposed in the plan are the most suitable and sustainable development options and provide for a variety of site types and sizes to ensure choice is offered to the market and delivery is achievable.</p> <p>The Objectively Assessed Need for South Kesteven is <u>15,625</u> <u>16,125</u> new dwellings. To ensure the Objectively Assessed Need is met in full, the minimum Local Plan requirement for South Kesteven is 16,125 dwellings across This equates to a minimum requirement to deliver on average 625 new homes per annum for the period 2011 to 2036-, this applies an uplift from 625 to 650 dwellings per annum from 2016 to take into account market signals.</p> <p>In recognition of recent past housing delivery rates having previously been below the 625 dwellings per annum requirement, the Local Plan incorporates policies and proposals sufficient to enable the delivery of approximately 13% in excess of the minimum Objectively Assessed Need. This approach will offer choice and contingency to the housing market, tackle affordability pressures and ensure the delivery of at least the minimum Objectively Assessed Need over the plan period.</p> <p>The overall strategy of the Plan is to deliver sustainable growth, including new housing and job creation, in order to facilitate growth in the local economy and support local residents. The focus for the majority of growth is in and around the four market towns, with Grantham being a particular focal point. Larger Villages will provide a supporting role in meeting the development needs of the District. Development should create strong, sustainable, cohesive and inclusive communities, making the most effective use of</p>	<p>For Clarity regarding buffer of the housing supply and an update of figures in line with the Objectively Assessed Need.</p> <p>To respond to comments made by the GLNP (SKR319 and SKR327) and to ensure consistency with paras 7, 10, 11 of the NPPF and to ensure internal consistency within the Plan.</p>	Yes		

New MM Reference (ordered by page number)	Section of Proposed Submission Version	Sub Section/Policy	Paragraph	Page No.	Proposals Map Ref.	Proposed Main Modification	Justification	SA																
						<p><u>appropriate</u> previously developed land (where possible) and enabling a larger number of people to access jobs, services and facilities locally. Development should provide the scale and mix of housing types that will meet the identified need for South Kesteven (as informed by the Peterborough Sub Regional Housing Market Assessments) and a range of new job opportunities in order to secure balanced communities (as informed by the Employment Land Study).</p> <p>Decisions on investment in services and facilities, and on the location and scale of new development, will be taken on the basis of the Settlement Hierarchy as set out in Policy SP2.</p> <p><u>Proposals should protect the best and most versatile agricultural land so as to protect opportunities for food production and the continuance of the agricultural economy. Development affecting the best and most versatile agricultural land will only be permitted if:</u></p> <ul style="list-style-type: none"><u>There is insufficient lower grade land available at that settlement (unless development of such lower grade land would be inconsistent with other sustainability considerations); and</u><u>Where feasible, once any development which is permitted has ceased its useful life the land will be restored to its former use, and will be of at least equal quality to that which existed prior to the development taken place (this requirement will be secured by planning condition where appropriate).</u>																		
MM12 AP13	2. Planning Policies for South Kesteven	SP2 Settlement Hierarchy		51		<p>Modification to bullet 3 of Policy SP2 to include the following text; and modification of Thurlby and Caythorpe to include the adjoining villages of Northorpe and Frieston respectively:</p> <ul style="list-style-type: none">In the Larger Villages as defined below, in addition to allocations, development proposals which promote the role and function of the Larger Villages, <u>and will not compromise the settlement's nature and character</u>, will be supported. <table border="1"><tr><td>Ancaster</td><td>Barkston</td></tr><tr><td>Barrowby</td><td>Baston</td></tr><tr><td>Billingborough</td><td>Caythorpe <u>and Frieston</u></td></tr><tr><td>Colsterworth</td><td>Corby Glen</td></tr><tr><td>Great Gonerby</td><td>Harlaxton</td></tr><tr><td>Langtoft</td><td>Long Bennington</td></tr><tr><td>Morton</td><td>South Witham</td></tr><tr><td colspan="2"><u>Thurlby and Northorpe</u></td></tr></table> <p>Modification of policy to identify a defined reference list of "smaller settlements" which were assessed through the Settlement Hierarchy Review of 2017. 						<p><u>Percentage breakdown of new development based on Consents + Commitments + Allocations + Council's Capital Programme (sum of 2nd, 3rd, 4th, 5th and 6th columns above)*</u></p> <table border="1"> <tr><td><u>Grantham</u></td><td><u>53%</u></td></tr> <tr><td><u>Stamford</u></td><td><u>18%</u></td></tr> <tr><td><u>Bourne</u></td><td><u>7%</u></td></tr> <tr><td><u>The Deepings</u></td><td><u>8%</u></td></tr> <tr><td><u>Larger Villages</u></td><td><u>10%</u></td></tr> <tr><td><u>Smaller Villages</u></td><td><u>4%</u></td></tr> </table> <p>2.17 The NPPF allows Local Planning Authorities to make an allowance for windfall sites in the five year supply if there is compelling evidence that sites have consistently become available in the local area and will continue to provide a reliable source of housing supply. Windfall sites are sites not specifically identified as being available for residential development but which may come forward on, subject to suitability. Examples may include the redevelopment of previously development land within a town or village, or small infill sites within settlements.</p> <p>2.18 There is a strong track record of windfall sites becoming available in South Kesteven. Whilst the supply of windfall sites is finite it is expected that the number of new dwellings being delivered on small windfall sites in the smaller villages will continue, and the more permissive policy incorporated through SP3: Infill Development will further enable this. The windfall allowance for the smaller villages amounts to 30 dwellings per annum <u>for 2021 - 2036</u>. This is calculated on the basis of the Plan period having a further <u>187</u> years. The Council is committed to delivering its OAN, as a minimum, and to ensure the Plan achieves a minimum of <u>625</u> <u>650</u> dwellings per annum, <u>uplifted from 625 from 2016</u>, the allocations included within the Plan are sufficient to deliver an over provision of approximately <u>13%</u>. <u>18%</u>.</p>	<u>Grantham</u>	<u>53%</u>	<u>Stamford</u>	<u>18%</u>	<u>Bourne</u>	<u>7%</u>	<u>The Deepings</u>	<u>8%</u>	<u>Larger Villages</u>	<u>10%</u>	<u>Smaller Villages</u>	<u>4%</u>

MM17 AP24 & AP84	Meeting Housing Need	H2: Affordable Housing		61	Reference SKPMC-2 of the Proposed Policy Map Main Modifications	<p>Amend wording of Policy H2: Affordable Housing Contribution;</p> <p>H2: Affordable Housing Contribution</p> <p>All developments comprising 11 or more dwellings (or greater than 1000m² gross floorspace) should make provision for 30% of the scheme's total capacity as affordable housing, <u>except within the urban area of Grantham as defined on the Policies Map where the affordable housing requirement on such developments will be 20%</u>.</p> <p>This should normally be provided within the development site. Where it is demonstrated that a development proposal cannot accommodate the affordable housing requirement on site the Council may accept provision off site; or as a commuted sum in lieu. In such cases the applicant will be expected to demonstrate why this exemption should be made based on the viability and specifics of an individual site.</p> <p>Proposals which seek to under-develop or split sites in a way that seeks to reduce the Affordable Housing contribution and/or promote off-site provision will not be acceptable.</p> <p>All affordable housing will be expected to:</p> <ol style="list-style-type: none">include a mix of socially rented/affordable rent/intermediate rent and intermediate market housing appropriate to the current evidence of local need and local incomes as advised by the Council;be well integrated with the open market housing through layout, siting, design and style; andbe of an appropriate size and/or property type to meet the need identified by the current evidence of local housing need for affordability the area; andmeet the accessible homes standard applicable in that location. The size and location of groups of affordable homes should be discussed and agreed with the Council. <p>The Council will expect this requirement to be met in all cases.</p> <p><u>The Council will consider site specific viability assessments only on brownfield development sites across the district and on sites within the Grantham residential allocations covered under Policy GR3. Otherwise, only in circumstances where it is clearly demonstrated with financial evidence, that a site is affected by unforeseen abnormal costs (or exceptionally low completed development values) will a lower provision be considered.</u></p> <p>In such cases <u>where site specific viability assessments are applicable</u>, the Council will consider alternative options to deliver a range of affordable and intermediate products and an overage clause will be included to cover any the deficit in provision. This must be justified through clear evidence set out in a viability assessment which the Council will have independently assessed. The applicant will be expected to meet the cost of this assessment.</p> <p>Where commuted sum payments in lieu of provision have been agreed, they will <u>normally</u> be used where possible for the provision of affordable housing within the vicinity of the development site. In other circumstances contributions may be pooled to provide affordable housing elsewhere in the district.</p>	To provide clarity on affordable housing provision in line with the evidence.	Yes

MM26 AP39	2. Planning Policies for South Kesteven	Economic Prosperity E5: Loss of Employment Land and Buildings to Non-Employment Uses	83			<p>Amend Policy E5;</p> <p>E56: Loss of Employment Land and Buildings to Non-Employment Uses</p> <p>In addition to the sites allocated in Policies E1 and E2 and the locally important employment sites listed in Policy E3, the Council will seek to retain and enhance existing areas of employment use, as well as the sites identified in Policies E1 to E4, unless it can be demonstrated that:</p> <p class="list-item-l1">a. the site is vacant and no longer appropriate or viable as an employment site – <u>this may include the need for an</u> and there is evidence that effective, robust and proportionate marketing of the land and buildings <u>to be undertaken; and has taken place;</u></p> <p class="list-item-l1">b. redevelopment <u>would maintain the scale of employment opportunities on the site, or would</u> deliver wider benefits, including regenerating vacant or unutilised land; <u>or</u></p> <p class="list-item-l1">c. the alternative use would not be detrimental to the overall supply and quality of employment land within the district; <u>or and</u></p> <p class="list-item-l1">d. the alternative use would resolve existing conflicts between land uses.</p>	For clarity	Yes																																				
MM27 AP40	2. Planning Policies for South Kesteven	E6 Rural Economy	84			<p>Amend bullet point d. of policy E6 Rural Economy to read:</p> <p>E67: Rural Economy</p> <p>Proposals for the following types of small business schemes will be supported, provided that it is demonstrated that the business will help to support, or regenerate the rural economy:</p>	To respond to comments made by the GLNP (SKR320) and to ensure consistency with	Yes																																				

New MM Reference (ordered by page number)	Section of Proposed Submission Version	Sub Section/Policy	Paragraph	Page No.	Proposals Map Ref.	Proposed Main Modification	Justification	SA	
						<p>Farming; Forestry; Equine; Rural enterprise; Sport and Recreation; and Tourism</p> <p>Proposals must demonstrate that they meet all of the following criteria:</p> <ul style="list-style-type: none">a. be of a scale appropriate to the rural location;b. be for a use(s) which is(are) appropriate or necessary in a rural location, providing local employment opportunities which make a positive contribution to supporting the rural economy;c. the use / development respects the character and appearance of the local landscape, having particular regard to the Landscape Character Assessment, and will not negatively impact on existing neighbouring uses through noise, traffic, light and pollution impacts; andd. avoid harm to areas, features or species which are protected because they are important for wildlife, biodiversity, natural, cultural or historic assets, including their wider settings."	<p>the NPPF, which refers to the conservation and enhancement of the natural environment and biodiversity on protected sites and more widely.</p>		
MM28	2. Planning Policies for South Kesteven	Visitor Economy	2.84	86		<p>Amend the text of para 2.84 to read:</p> <p>The visitor economy is an important part of South Kesteven's local economy. The District attracts over 2.2 million visitors a year, generating over £156 million and supporting 2,500 jobs. In addition to the architectural and historical beauty of the District's villages, and countryside <u>and natural environment</u>, other major attractions within the District are Belton House, Woolsthorpe Manor, the Georgian heritage of Stamford, Grimsthorpe Manor, Easton walled garden and St Wulfram's Church in Grantham; the rural parts of the District provide attractions through walking and cycling routes, canal and waterways, aviation history and other varied attractions..."</p>	<p>To respond to comments made by the GLNP (SKR321) to recognise the role and importance of the natural environment in tourism activities.</p>	No	
MM29 AP42	2. Planning Policies for South Kesteven	E8 Visitor Economy		86		<p>Amend the wording of policy E8 Visitor Economy at bullet point a. as follows:</p> <p>E89: Visitor Economy</p> <p>Proposals for development of the local visitor economy will be supported where these:</p> <ul style="list-style-type: none">a. allow provision for visitors which is appropriate in use and character to South Kesteven's settlements and <u>maintains the quality of the countryside and the natural environment</u>;"	<p>To respond to comments made by the GLNP (SKR321) to recognise the role and importance of the natural environment in tourism activities.</p>	No	
MM30 AP41	Economic Prosperity	E7: Other Employment Proposals		86		<p>Amend Policy E7: Other Employment Proposals as below;</p> <p>E78: Other Employment Proposals</p> <p>Other employment proposals in locations not covered by the above policies will be supported, provided there is a clear demonstration that;</p> <ul style="list-style-type: none">a. there are no suitable or appropriate sites or buildings within allocated sites or the built up area of existing settlements;b. <u>there is no significant</u> any adverse impact on the character and appearance of the area and the amenity of neighbouring uses;c. <u>there are no significant</u> any adverse impact on the local highway network;	<p>For clarity</p>	Yes	

New MM Reference (ordered by page number)	Section of Proposed Submission Version	Sub Section/Policy	Paragraph	Page No.	Proposals Map Ref.	Proposed Main Modification	Justification	SA
						<p>d. <u>there is no significant</u> any likely adverse impact on the viability of delivering any allocated employment site; and e. <u>there is a</u> any business case which demonstrates that the business requires a location outside an allocated employment site.</p>		
MM31	2. Planning Policies for South Kesteven	Landscape Character		88		<p>Insert new text after paragraph 2.85 as follows:</p> <p><u>The District can be divided into four National Landscape Areas and further subdivided into seven Landscape Areas, each with its own distinctive characteristics. The Kesteven Uplands, the largest and central part of the District, contains a high proportion of ancient woodlands, both semi-natural and replanted, and is abundant with species-rich calcareous grassland. The agricultural classification of the land is mainly Grade 3, with swathes of Grade 2 along the Lincoln Edge. The Fen area of South Kesteven is also Grade 2 high quality agricultural land. Within the Fens, ecological interest is concentrated around the drainage ditches which can support a range of wetland species.</u></p>	To respond to comments made by the GLNP (SKR323) and to ensure consistency with the NPPF (in particular paragraphs 9, 109, 117 and 118).	No
MM32	2. Planning Policies for South Kesteven	Biodiversity and Geodiversity		90		<p>Insert new text after paragraph 2.89 as follows:</p> <p><u>South Kesteven has a variety of nature reserves and protected sites as described below. These sites should be seen as part of an ecological network, managing, restoring and creating habitat in the right places helps rebuild a resilient network and enables species to thrive not just in one place but across wider landscapes. There are two Natura 2000 Special Area of Conservation (SAC) sites in the district: Baston Fen and Grimsthorpe Park. There are nearly 400 Tree Preservation Orders throughout the District and South Kesteven is also home to a nationally significant population of native White Clawed Crayfish.</u></p> <p><u>Development will seek to provide net gain to the environment and biodiversity of the District, in particular Priority habitats and species. This will ensure that the wider benefits of the natural environment can be appreciated by all; this natural capital includes flood alleviation, pollination services, healthy soil and clean air.</u></p>	To respond to comments made by the GLNP (SKR323) and to ensure consistency with the NPPF (in particular paragraphs 9, 109, 117 and 118).	No
MM33 AP5	2. Planning Policies for South Kesteven	EN2 Protecting Biodiversity and Geodiversity		91		<p>Amend the wording of policy EN2 Protecting Biodiversity and geodiversity as follows:</p> <p>The Council, working in partnership with all relevant stakeholders, will facilitate the conservation, enhancement and promotion of the <u>District's</u> biodiversity and geological interest of the natural environment throughout the district. <u>This includes seeking to enhance ecological networks and seeking to deliver a net gain on all proposals, where possible.</u></p> <p>Proposals that are likely to have a significant effect on an International Site will be considered in the context of the statutory protection which is afforded to the site.</p> <p><u>Proposals that are likely to have a significant impact on sites designated internationally, nationally or locally for their biodiversity and geodiversity importance, species populations and habitats identified in the Lincolnshire Biodiversity Action Plan, Geodiversity Strategy and the Natural Environment and Rural Communities (NERC) Act 2006 will only be permitted in exceptional circumstances:</u></p> <ul style="list-style-type: none"><u>In the case of internationally designated sites (alone or in combination), where there is no alternative solution and there are overriding reasons of public interest for the development.</u>	To respond to comments made by the GLNP, to ensure consistency with the NPPF and for legal compliance.	Yes

New MM Reference (ordered by page number)	Section of Proposed Submission Version	Sub Section/Policy	Paragraph	Page No.	Proposals Map Ref.	Proposed Main Modification	Justification	SA
						<ul style="list-style-type: none">Proposals that are likely to have an adverse effect on a <u>In the case of</u> National Sites (alone or in combination) will not normally be permitted, except where the benefits of development in that location clearly outweigh both the impact on the site and any broader impacts on the wider network of National Sites.In instances where development proposals will have a negative impact on a <u>the case of</u> Local Sites (or other site of nature or geological importance), it should first be ascertained whether impacts could be avoided, if this is not possible, then they should be mitigated. If mitigation is not possible, then compensation will be sought. (e.g. Local Wildlife Sites) or sites which meet the designation criteria for Local Sites, the reasons for development must clearly outweigh the long term need to protect the site. <p><u>In exceptional circumstances where detrimental impacts of development cannot be avoided (through locating an alternative site) the Council will require appropriate mitigation to be undertaken by the developers or as a final resort compensation. Where none of these can be achieved then planning permission will be refused. Where any mitigation and compensation measures are required, they should be in place before development activities start that may disturb protected or important species.</u></p> <p>Planning permission will be refused for development resulting in the loss, deterioration or fragmentation of irreplaceable habitats, including ancient woodland and aged or veteran trees, unless the need for, and benefits of, the development in that location clearly outweigh the loss or harm."</p>		
MM34	2. Planning Policies for South Kesteven	EN2 Protecting Biodiversity and Geodiversity		91		<p>Insert a new paragraph before the final paragraph of policy EN2 Protecting Biodiversity and Geodiversity, which starts "Planning permission will be refused for development....":</p> <p><u>Development proposals that are likely to result in a significant adverse effect, either alone or in combination, on any internationally designated site, must satisfy the requirements of the Habitats Regulations. Development requiring Appropriate Assessment will only be allowed where it can be determined, taking into account mitigation, that the proposal would not result in significant adverse effects on the site's integrity.</u></p>	For effectiveness, clarity and legal compliance with the Habitats Regulations.	Yes
MM35 AP72	2. Planning Policies for South Kesteven			91		<p>Create a new sub heading 'Green Infrastructure' and insert new supporting text between the policy text boxes for EN2 Protecting Biodiversity and Geodiversity and EN3 Green Infrastructure as follows:</p> <p><u>The concept of green infrastructure involves a connected approach to environmental management. It utilises a landscape scale approach and focuses on the relationships between habitats, greenspaces, such as green open spaces, bluespaces as networks and the wildlife/communities that they benefit, rather than on the needs of individual sites, species and neighbourhoods. Green infrastructure provides multiple benefits and vital functions for the economy, people, wildlife and communities including health, tourism, flood management, climate change mitigation and clean air. It will be highly valued and considered a priority within planning.</u></p> <p><u>Green Infrastructure should provide for multi-functional uses for example wildlife, recreational and cultural experience, as well as delivering ecological benefits, flood protection and microclimate control. It includes habitats, rivers and their floodplains, greenspaces and civic areas and should operate at all spatial scales from urban centres through to open countryside. As such Policy OS1 should be read in conjunction with EN3.</u></p>	To respond to comments made by the GLNP (SKR325) and to ensure consistency with the NPPF.	No

New MM Reference (ordered by page number)	Section of Proposed Submission Version	Sub Section/Policy	Paragraph	Page No.	Proposals Map Ref.	Proposed Main Modification	Justification	SA
						<p><u>Connectivity between different green infrastructure assets can help maximise the benefits that they generate. Well-connected green infrastructure assets create a network that allows and encourages movement by people and wildlife, helping to maximise the benefits and support adaptation and resilience to a changing climate.</u></p> <p><u>The Council will work to ensure the promotion of green infrastructure, prioritising proposals that contribute to net gain and enhancement of green infrastructure.</u></p>		
MM36	2. Planning Policies for South Kesteven	EN3 Green Infrastructure		91		<p>Amend 1st paragraph of policy EN3 Green Infrastructure by creating a new 2nd paragraph after "...each other and the wider countryside" as follows:</p> <p>Development proposals should ensure that existing and new green infrastructure is considered and integrated into the scheme design, <u>taking opportunities to enrich biodiversity habitats, enable greater connectivity and provide sustainable access for all. Proposals which may result in recreational and visitor pressure on designated biodiversity sites will be particularly expected to provide such green infrastructure.</u></p>	For effectiveness and clarity and legal compliance with the Habitats Regulations.	Yes
MM37	2. Planning Policies for South Kesteven	EN4 Pollution Control		93		<p>Amend the wording of policy EN4 Pollution Control before the 2nd paragraph as follows:</p> <p><u>Development should seek to minimise and where possible contribute to the protection and improvement of the quality of air, land and water. In achieving this:</u></p> <p><u>Development should be designed from the outset to improve air, land and water quality and promote environmental benefits.</u></p> <p>Development that, on its own or cumulatively, would result in significant air, light, noise, <u>land, water</u> or other environmental pollution or harm to amenity, health <u>well-being</u> or safety will <u>only not</u> be permitted. <u>if the potential adverse effects can be mitigated to an acceptable level by other environmental controls, or by measures included in the proposals. It should also be ensured that n</u><u>New development proposals</u> <u>do</u> should not have an adverse impact on existing operations.</p> <p><u>Development will only be permitted if the potential adverse effects can be mitigated to an acceptable level by other environmental controls, or by measures included in the proposals.</u></p> <p><u>Development that would lead to deterioration or may compromise the ability of a water body or underlying groundwater to meet good status standards in the Anglian River Basin Management Plan (required by the Water Framework Directive) will not be permitted.</u></p> <p><u>Where development is situated on a site with known or high likelihood of contamination, remediation strategies to manage this contamination will be required.</u></p> <p><u>Subject to the Policies in this Plan, planning permission will be granted for development on land affected by contamination where it can be established by the proposed developer that the site can be safely and viably developed with no significant impact on either future users or on ground and surface waters.</u></p>	To respond to comments made by the GLNP (SKR326) and to ensure consistency with the NPPF and the requirements of the Water Framework Directive.	Yes
MM38	2. Planning Policies for South Kesteven	Reducing the Risk of Flooding		93		<p>After paragraph 2.102, insert the following new text:</p> <p><u>The District contains some important Water Framework Directive (WFD) water bodies including the Upper Witham, River Welland and River Glens. The Upper Witham currently supports endangered native crayfish, brown trout and grayling. A range of pressures including poor habitat, diffuse and point source pollution,</u></p>	To respond to comments made by the GLNP (SKR328), consistency with	No

New MM Reference (ordered by page number)	Section of Proposed Submission Version	Sub Section/Policy	Paragraph	Page No.	Proposals Map Ref.	Proposed Main Modification	Justification	SA
						<p><u>invasive species and low flows are impacting these water bodies and preventing the target of good status from being achieved.</u></p> <p><u>There is a requirement for the WFD status of surface and ground water bodies across the district to be improved. Therefore the Council will seek to deliver improvements to the water environment through development, which will not only help to improve WFD status but can deliver multiple benefits. The proposals to create a green corridor along the Witham in Grantham shows the potential for what can be achieved when considering growth alongside environmental enhancement opportunities.</u></p> <p><u>The WFD requires Member States to achieve 'good ecological status' in all surface freshwater bodies between 2015 and 2027 and to ensure that in future there is no 'deterioration' of the ecological potential of the water environment. Different water bodies are categorised based on four elements - biology, chemical water quality, physical structure and water quality – which together determine the overall ecological potential of the surface water environment. The Anglian River Basin Management Plan details what actions need to be taken in order for the WFD requirements to be met in the area. Development that could potentially lead to river status deterioration or compromise the achievement of good ecological status as set out in the Anglian River Basin Management Plan should be accompanied by a suitable assessment and proposals for mitigation.</u></p> <p><u>There is a presumption against the use of non-mains foul drainage, except where it is proven that it is not reasonable to use mains drainage, taking into account cost, practicality and sustainability.</u></p> <p><u>Brownfield land may be subject to contamination from previous uses, which can pose risk to surface water, human health and the wider environment. South Kesteven's geology includes large areas dominated by the Lincolnshire Limestone which is classified as a Principal Aquifer. These aquifers exhibit high permeability and provide a high level of water storage. They support water supply and river base flow on a strategic scale. Other substantial areas of South Kesteven are located over sand and gravel deposits which are classified as Secondary Aquifers. These aquifers support water supplies at a local scale and in some cases form an important source of base flow to rivers. Principal and Secondary Aquifers are vulnerable to contaminants.</u></p> <p><u>The Environment Agency is the statutory body responsible for the management of groundwater resources. As such proposed development on Brownfield sites should be considered in the context of its prepared guidance on groundwater protection 'The Environment Agency's approach to groundwater protection' which sets out its approach to the management and protection of groundwater. The guidance is available on the Gov.UK website.</u></p> <p><u>Contamination can also occur in other locations, including in the countryside (e.g. by inappropriate spreading of materials such as sludges, or as a result of contamination being moved from its original source).</u></p> <p><u>In addition, some areas may be affected by the natural or background occurrence or potentially hazardous substances, such as radon, methane or elevated concentrations of metallic elements.</u></p> <p><u>In enabling redevelopment of brownfield sites remediation may be necessary. The level of remediation required will be dependent on the proposed end use of the land.</u></p>	the NPPF and the requirements of the Water Framework Directive.	

New MM Reference (ordered by page number)	Section of Proposed Submission Version	Sub Section/Policy	Paragraph	Page No.	Proposals Map Ref.	Proposed Main Modification	Justification	SA					
						<p><u>Where development is proposed on a site which is known or has the potential to be affected by contamination, a preliminary risk assessment should be undertaken by the developer and submitted to the local planning authority as the first stage in assessing the risk. Preliminary risk assessments and subsequent investigations should be carried out in accordance with the Environment Agency's Contaminated Land Report (CLR 11) 'Model Procedures for the Management of Land Contamination', or any subsequent replacements.</u></p> <p><u>Unless this initial assessment clearly demonstrates that the risk from contamination can be satisfactorily reduced to an acceptable level, further site investigations and risk assessment will be needed before the application can be determined.</u></p> <p><u>Remediation strategies should be proportionate to the proposed end use and should seek to ensure that there is no additional risk arising from the development. Remediation strategies are dependent on desktop/research based survey and potentially testing/site investigation and these will advise the necessary level of remediation. Prior to submitting SuDS proposals, developers should ensure that land is suitable for soakaways, and that the soakaways would provide effective drainage and protect vulnerable groundwater from contamination.</u></p> <p><u>Where pollution issues are likely to arise, intending developers should hold pre-application discussions with the local planning authority, the relevant pollution control authority and stakeholders with a legitimate interest.</u></p> <p><u>In cases where planning permission is granted for development of a site on which the presence of contamination is known or suspected, the responsibility for safe development for the site rests with the developer and landowner.</u></p>							
MM39	2. Planning Policies for South Kesteven	EN5 Reducing the Risk of Flooding		95		Amend 4 th paragraph of policy EN5 Reducing the Risk of Flooding to read: ...On-site attenuation and infiltration will be required as part of any new development wherever possible. It should also consider the achievement of <u>Opportunities must be sought to achieve</u> multiple benefits, for example through green infrastructure provision and biodiversity enhancements in addition to their drainage function.	To respond to comments made by the GLNP (SKR329).	No

						<p>where relevant, connections to the neighbouring Poplar Farm development will be resisted.</p> <p>The following development principles accompany this allocation:</p> <ul style="list-style-type: none">a. Development should provide a strategic access solution which limits the number of new access points onto the A52 Barrowby Road. The strategic access solution should include details on vehicular, pedestrian and cycleway connections to the adjacent Poplar Farm.b. The layout of the development should provide appropriate transport infrastructure measures to encourage walking, cycling and use of public transport in order to maximise opportunities for sustainable modes of transport.c. Provide for safe and convenient highway, footway, and cycleway connections throughout the site connecting residents to local schools, including the new Poplar Farm Primary School, community facilities and into the town centre.d. The development will make suitable open space provision including providing an additional playing field or land for such use, adjacent to the boundary of Poplar Farm School.e. Land in the North-West corner of the site, following the public footpath known as Barr 11/4, shall be used for the provision of landscaping and open space only, to protect the sensitive landscape from development.f. The development should incorporate Sustainable Urban Drainage systems where practical and possible to do so.g. The development should provide net gains in biodiversity on site and contribute to wider ecological networks where possible.a. Development of this site should seek to positively incorporate strategic views towards the Town's heritage assets and their setting (i.e. Belmont Tower, St Wulfram's, and St Sebastian's). The topography of the site shall be carefully considered to ensure that development proposals minimise possible harm to cross town views of these heritage features.b. Additional treatment capacity is required at waste water treatment works and new discharge permits are required for water quality targets. This should be incorporated early on in the development of scheme specifics as part of a scheme wide delivery strategy which demonstrates that capacity is available or could be made available to serve the development subject to phasing.c. To ensure the development achieves good, high quality design a design code will be prepared for the whole site.d. Detailed proposals should come forward comprehensively to reflect the Development Brief for this site.I. The development will provide appropriate mitigation measures to the Strategic Road Network if required and demonstrated by relevant transport assessment and agreed with Highways England.

Clarification on the requirements of Mineral Assessments	Yes

New MM Reference (ordered by page number)	Section of Proposed Submission Version	Sub Section/Policy	Paragraph	Page No.	Proposals Map Ref.	Proposed Main Modification	Justification	SA
		(SKLP23) Colsterworth				The site is situated within a Minerals Safeguarding Area, which seeks to safeguard the minerals resource in the ground for future potential working. The final allocation therefore be accompanied by a Minerals Assessment. Before considering a planning application for this site, a Minerals Assessment is required.		
MM60 AP48	3. South Kesteven's Communities	Larger Village Allocations: LV-H6: Swinstead Road/Bourne Road (SKLP4, SKLP320) Corby Glen		169		Amend Policy LV-H6: Swinstead Road Corby Glen: Residential Allocations LV-H65: Swinstead Road / Bourne Road (SKLP4, SKLP320) Indicative Unit Numbers: 250 Approximate Density: 30 dwellings per hectare. The following development principles accompany this allocation: a. A comprehensive masterplan is required for the entire site. b. An East-West connection (transport and pedestrian) should be provided by the development. c. Pedestrian links, footways or cycleway connections into village, and adjacent playing fields from the site should be incorporated in the development proposal. d. The development shall accommodate specialist housing needs through the provision of good quality family housing that is both well designed and integrated into the development proposal. e. Landscape screening shall be provided along the northern <u>and eastern</u> edges of the site. k. <u>This site is situated within a Minerals Safeguarding Area and Limestone Minerals Safeguarding Area. Before considering a planning application for this site, a Minerals Assessment will be required.</u>	To ensure landscape screening along eastern as well as northern edges of the site. Site identified within a Limestone Mineral Safeguarding Area.	Yes
MM61	3. South Kesteven's Communities	Larger Village Allocations: Corby Glen	3.76	169		Amend wording of paragraph 3.76; 3.76 The proposed allocations for Corby Glen are is for approximately 280-250 new homes on two sites. With respect to the larger proposed allocation at Swinstead Road/ Bourne Road, it is proposed in particular to promote the provision of family housing, as unlike any other larger village, Corby Glen benefits from the provision of a secondary school.	For clarification on the removal of allocation LV-H7: Swinstead Road	No
MM62 AP50	3. South Kesteven's Communities	Larger Village Allocations: LV-H7: Swinstead Road (SKLP280)		170	LV-H7 (ref. SKPMC-9) of the Proposed Policy Map Main Modifications)	Remove allocation LV-H7: Swinstead Road (SKLP280).	Site has been granted planning permission	No
MM63	Langtoft Residential Allocation	Langtoft Residential Allocation (LV-H9: Former Gravel Works, Stowe		178	LV-H9 (Reference SKPMC-5 of Proposed	Delete allocation.	Site now has Planning Permission with a signed s106.	No

		Road (SKLP31 and SKLP33)			Policy Map Main Modifications)			
MM64 AP52	3. South Kesteven's Communities	Larger Village Allocation: South Witham Residential Allocation LV-H13: Thistleton Lane and Mill Lane (SKLP43, SKLP123)		188		<p>Insert 2 additional development principles after bullet point g of policy LV-H13 as follows:</p> <p><u>h. That development should seek to improve biodiversity and minimise any impact on South Witham Quarry RIGS/cLGS.</u></p> <p><u>i. This site is situated within a Minerals Safeguarding Area and Limestone Minerals Safeguarding Area. Before considering a planning application for this site, a Minerals Assessment will be required.</u></p>	To respond to comments made by the GLNP (SKR334).	Yes
MM65 AP53	3. South Kesteven's Communities	Larger Village Allocations: LV-H14: Land North of High Street (SKLP312) South Witham		188		<p>Proposed additional criterion as site identified within a Limestone Mineral Safeguarding Area;</p> <p><u>h. This site is situated within a Minerals Safeguarding Area and Limestone Minerals Safeguarding Area. Before considering a planning application for this site, a Minerals Assessment will be required.</u></p>	Site identified within a Limestone Mineral Safeguarding Area	Yes
MM66 AP54	Thurlby: Residential Allocation	LV-H15: Part of Elm Farm Yard (SKLP16)		191		<p>Expand wording at criterion c. as follows:</p> <p>c. Pedestrian links, such as footway connections into village from the site should be incorporated in the development proposals. <u>This should include safe pedestrian connectivity east and west of the A15 to village facilities.</u></p>	To provide certainty of safe pedestrian connectivity	Yes
MM67	4. Infrastructure and Developer Contributions	ID1 Infrastructure for Growth		196		<p>Insert a new paragraph after the 4th paragraph of policy ID1 Infrastructure for Growth as follows:</p> <p><u>Planning permission should only be granted if it can be demonstrated that there is or will be sufficient infrastructure capacity provided within an agreed timescale to support and meet all the requirements arising from the proposed development.</u></p>	To respond to comments made by the GLNP (SKR331) and to ensure consistency with para 177 of the NPPF.	Yes
MM68 AP82	4. Infrastructure and Developer Contributions	ID2: Transport and Strategic Transport Infrastructure		198		<p>Amend criterion d. of policy ID2 as below;</p> <p>a. Do not <u>unacceptably severely</u> impact on the safety and movement of traffic on the highway network or that any such impacts can be mitigated through appropriate improvements, including the provision of new or improved highway infrastructure; and</p>	For clarity	Yes
MM69 AP 83	4. Infrastructure and Developer Contributions	ID3: Broadband and Communication Infrastructure		201		<p>Amend Policy ID3: Broadband and Communications Infrastructure;</p> <p>ID3: Broadband and Communications Infrastructure</p> <p>Proposals to enhance information communication networks, such as superfast broadband, will be supported across the district.</p> <p><u>Proposals of 30 dwellings or more will be required to provide fixed fibre superfast broadband, where this is technically feasible and subject to viability.</u></p>	For clarity	Yes

New MM Reference (ordered by page number)	Section of Proposed Submission Version	Sub Section/Policy	Paragraph	Page No.	Proposals Map Ref.	Proposed Main Modification	Justification	SA
						<p>Proposals for residential development of less than 30 dwellings and commercial development will be required to provide fixed fibre broadband where this is technically feasible, subject to viability.</p> <p>New developments must be served by either:</p> <ul style="list-style-type: none">a. Fibre to the Premises (FTTP) technology; orb. Fibre to the Cabinet (FTTC) technology enabling access to broadband speeds of up to 80 megabits per second; orc. any other emerging communication technology.		
MM70 AP70	5. Monitoring and Implementation	Monitoring Framework	5.4	202		<p>Amend paragraph 5.4 as below;</p> <p>5.4 The Local Plan indicators are set out below. The baseline for reporting will be either The commencement of the Plan period (2011) or the adoption of the Plan.</p> <p><u>Key Local Plan Indicators</u></p> <ul style="list-style-type: none">• Amount of development by type within each settlement as identified in the settlement hierarchy;• Supply of ready to develop housing sites in order to maintain at least a 5 year rolling supply;• Net additional dwellings delivered based on the minimum requirement to deliver an average of 625 <ins>650</ins> dwellings per annum, <u>uplifted from 625 from 2016</u>, over the plan period;• Number of affordable dwellings delivered based on the policy of 30% of homes on sites of more than 11 dwellings;	Factual Update to reflect amended Housing Need and Housing land supply	No
MM71 AP65	5. Monitoring and Implementation	Residential Completions	5.10-5.13	203		<p>Amend wording of paragraphs 5.10 -5.13 of the Monitoring and Implementation Framework, as below;</p> <p>5.10 The strategic Housing Market Assessment (SHMA) Update 2017 sets out an Objectively Assessed Housing Need (OAN) for South Kesteven of 625 dwellings per annum for the period 2011-36, <u>this has been increased to 650 dwellings per annum from 2016 to take into account market signals</u> equating to a total of 15,625 <ins>16,125</ins> dwellings over the plan period. <u>To ensure that the OAN is met in full, the Plan includes a minimum requirement of 650 dwellings per annum from 2016, equating to 16,125 dwellings over the plan period.</u> This is the minimum number of homes that the Local Plan needs to provide for. Additional land can be allocated in order to provide choice to the market and great certainty to deliverability of the Plan.</p> <p><u>5.11 The housing trajectory below sets out the expected rates of completions, based on information by site promoters and other site intelligence. The trajectory has been broken down by type of supply including:</u></p> <ul style="list-style-type: none">• <u>Large sites with planning permission not under construction</u>• <u>Large sites under construction</u>• <u>Small sites with planning permission, including under construction</u>• <u>Windfall Allowance (2020-2036)</u>• <u>Sustainable Urban Extensions with planning permission</u>• <u>Proposed Local Plan Allocations</u>• <u>Council's Capital Programme Sites</u>• <u>Completions (2011-2019)</u>• <u>Local Plan requirement of 650 dwellings per year up to 2036.</u>	For clarity regarding buffer of the housing supply and to update of figures in line with Objectively Assessed Need.	No

New MM Reference (ordered by page number)	Section of Proposed Submission Version	Sub Section/Policy	Paragraph	Page No.	Proposals Map Ref.	Proposed Main Modification	Justification	SA
						<p>5.12 The trajectory shows a shortfall of housing since 2011. A deliverable land supply is to be calculated using the Liverpool Method for the first five years of the Plan Period, taking account of the shortfall since 2011 across the plan period. This is due to the allocation of multiple strategic sites through the plan, which will generally require significant new infrastructure and therefore take longer to reach the development phase than smaller sites.</p> <p>5.13 A windfall allowance has been applied to the trajectory. To avoid double counting the windfall allowance is excluded from the first 2 years of the trajectory, and the current commitments are deducted from the allowance within the first 5 years.</p> <p>5.14 Whilst the housing requirement is based on the Objectively Assessed Need, the Plan trajectory contains a buffer of around 18% above the minimum requirement to deliver the Local Plan requirement of 16,125 new homes up to 2036, and to provide choice and contingency.</p> <p>5.11 The District has a committed supply of 8,726 dwellings,</p> <p>5.12 The plan incorporated a 13% over allocation, in order to offer choice and contingency to the market, as well as recognising that a number of units are committed on large sites and these will take time to complete.</p> <p>5.13 The housing trajectory below sets out the expected rates of completions, based on information provided by site promoters, per annum across the plan period. The housing trajectory is a guide only, there is nothing to prevent completions exceeding these figures; however, it is anticipated that the 13% over allocation, will assist the Plan delivers in delivering the minimum requirement of 15,625 homes for the Plan period of 2011 to 2036.</p>		
MM72 AP29	5. Monitoring and Implementation	Review		203		<p>Include new Policy on the review of the Local Plan including supporting reasoned justification as below;</p> <p>The Council is committed to an early review of this Local Plan beginning in April 2020. The plan was submitted to the Secretary of State for examination towards the end of the transition period. It has therefore been examined against the context of national planning policy set out in the 2012 National Planning Policy Framework. An early review will enable policies and proposals to take account of the revised National Planning Policy Framework introduced in July 2018.</p> <p>In addition during the public examination hearings into the Local Plan a number of issues were highlighted for specific attention in the next review of the Local Plans. These include for the review to reflect the changes to housing methodologies as set out in the 2018 NPPF. An early review will also offer the opportunity to update other elements of the Council's evidence base, particularly the 2015 Employment Land Study. The examination also highlighted a need for an early review to the Local Plan in order to provide certainty in meeting the accommodation needs of the gypsy and traveller community through a positive site allocation(s) where updated evidence to inform the review continues to show an identified need for permanent pitches for gypsies and travellers.</p> <p>Policy M1 accordingly requires that the next full review of the Local Plan should start in 2020 with South Kesteven Local Plan submission for examination anticipated by the end of 2023.</p>	To confirm review of the Local Plan	Yes

New MM Reference (ordered by page number)	Section of Proposed Submission Version	Sub Section/Policy	Paragraph	Page No.	Proposals Map Ref.	Proposed Main Modification	Justification	SA																
						<p>Policy M1: Review of the Local Plan</p> <p><u>The Council will commit to undertake an early review of the Local Plan to commence from April 2020, with submission to the Secretary of State for examination anticipated by the end of December 2023.</u></p> <p><u>The Council will consider options to undertake this review in conjunction with neighbouring authorities. Specific matters to be addressed by the review include, but are not limited to, the following:</u></p> <p class="list-item-l1">b. <u>The progress being made towards implementation of the spatial strategy for South Kesteven, in particular the focus on development in Grantham to be achieved by the end of the plan period;</u></p> <p class="list-item-l1">c. <u>Taking account of the latest National Planning Policy Framework, particularly in relation to the assessment of housing needs and future requirement for employment land; and</u></p> <p class="list-item-l1">d. <u>Further assessment of the needs of the Gypsy and Traveller Community, including Travelling Showpeople, and the need to allocate land to meet identified needs.</u></p>																		
MM73 AP67	5. Monitoring and Implementation	Monitoring Framework	Figure 41	205		Update and amend figure 41 Indicative Local Plan Housing Trajectory with new graph based on the new revised housing land supply paper (EX/SKDC/40) and further modifications (see appendix 1 for revised figure 41). - Appendix 4: Schedule of Saved Policies to be included at Appendix 5 of Local Plan (Main Modification 75)

Appendix 1: Figure 41, page 205

Local Plan Monitoring and Implementation Framework

Policy	Indicator	Target	Source	Action and Contingencies
SD1: The Principles of Sustainable Development in South Kesteven	The number of applications refused planning permission due to non-compliance with Policy SD2 and supported at appeal.	To ensure sustainable development is achieved	Planning Application decisions and Planning Appeal decisions.	Review evidence with possible review of policy through review of the Local Plan
SP1: Spatial Strategy	Number and percentage of dwellings completed, by location, in accordance with Policy SP2: Settlement Hierarchy.	Majority of housing to be delivered in Grantham, and then as per the Settlement Hierarchy as defined in Policy SP2.	Monitoring of housing completions via planning decisions/ site visits/ /building control records, NHBC records	Identify problem and barrier(s) to development via assessment and/or discussions with interested parties including re. viability. Consider review of policy through Local Plan Review.
SP2: Settlement Hierarchy	See Indicator for policy SP1	See Target for Policy SP1	See Source for Policy SP1	See Action and Contingencies for SP1
SP3: Infill Development	The number of applications refused planning permission contrary to Policy SP3, and supported at appeal.	No applications refused planning permission, contrary to Policy SP3, to be supported at appeal.	Planning Application decisions and Planning Appeal decisions.	Consider review of Policy SP3 through Local Plan Review.
SP4: Development on the Edge of Settlements	The number of applications refused planning permission contrary to Policy SP4, and supported at appeal.	No applications refused planning permission, contrary to Policy SP4, to be supported at appeal.	Planning Application Decisions and Planning Appeal decisions.	Consider review of Policy SP4 through Local Plan Review
SP5: Development in the Open Countryside	The number of applications refused planning permission contrary to Policy SP5, and supported at appeal.	No applications refused planning permission, contrary to Policy SP5, to be supported at appeal.	Planning Application Decisions and Planning Appeal decisions.	Consider review of Policy SP5 through Local Plan Review.
H1: Housing Allocations	Total number of dwellings completed annually, by location and status (allocation or windfall)	Deliver 650 dwellings per annum to meet the required need over the plan period	Monitoring of housing completions via planning decisions/ site visits/ /building control records, NHBC records	Identify problem and barrier(s) to development via assessment and/or discussions with interested parties including re. viability. Review unimplemented housing site allocations – consider removal or addition allocations. Bring sites forward later phases of the plan period if appropriate in accordance with 5YHLS. Follow HDT guidance and requirements.

Local Plan Monitoring and Implementation Framework

Policy	Indicator	Target	Source	Action and Contingencies
	Number of lapsed sites per annum across all sites (allocations and windfall)	To monitor the number of lapsed sites and removal of such sites from housing supply commitments.	Monitoring of housing completions via planning decisions/ site visits/ /building control records, NHBC records	If lapsed sites are not being accurately recorded, review monitoring methods.
	Number of demolitions per annum across all sites (allocations and windfall)	To monitor the number of demolitions and removal of such sites from housing supply commitments.	Monitoring of housing completions via planning decisions/ site visits/ /building control records, NHBC records	If demolitions are not being accurately recorded, review monitoring methods
	Loss of residential to other use classes (no. of dwellings) across all sites (allocations and windfall)	No net loss of residential to other uses.	Monitoring of housing completions via planning decisions/ site visits/ /building control records, NHBC records	Identify the problem and look to rectify through Local Plan Review.
H2: Affordable Housing Contributions	Proportion of housing completions on qualifying sites that are affordable.	30% of total housing completions on all eligible sites 20% in urban area of Grantham	Monitoring of housing completions via planning decisions/ site visits/ /building control records, NHBC records	Consider the need to revise affordable housing policy requirements through the plan review.
H3: Self and Custom Build Housing	Total number of individuals/ families and groups registered on the Self-build and Custom build Housing Register. Number of specifically stated self-build plots permitted as part of planning application on sites of 400 or more units.	At least 2% of self and custom build plots permitted on sites with 400 or more units	Monitoring of housing completions via planning decisions/ site visits/ /building control records, NHBC records	Consider the need to revise the Self and Custom Build Housing policy requirements through the Local Plan review.
H4: Meeting All Housing Needs	Number of varying housing types, as identified in Policy H4, permitted and completed, by location – including specialist housing	Delivery of a suitable range and mix of house types which are appropriate to their locations and local needs	Monitoring of housing completions via planning decisions/ site visits/ /building control records, NHBC records	Consider the need to revise the policy requirements through the Local Plan review.

Local Plan Monitoring and Implementation Framework

Policy	Indicator	Target	Source	Action and Contingencies
H5: Gypsies and Travellers	Number of approved gypsy and traveller pitches from development control, planning policy records.	Meet the assessed needs of gypsies and travellers according to the SKDC and RC GTAA (2015). No unauthorised encampments per annum.	Monitoring of planning permissions, liaising with the community, inc. site visits	Consider the need to allocate specific gypsy and traveller sites through the Plan review Regular review of evidence base to determine need.
H6: Travelling Showpeople	Number of approved pitches from development control and planning policy records.	Meet needs identified in accordance with the SKDC and RC GTAA	Monitoring of planning permissions, liaising with the community, inc. site visits.	Consider the need to allocate specific travelling Showpeople sites through the Plan review. Regular review of evidence base to determine need.
SP6: Community Services and Facilities	Number & type of services and facilities lost in South Kesteven by location.	No net loss of facilities to ensure community facilities are provided to meet local needs	Monitoring of change of use permissions, site visits.	Consider review of policy through the Local Plan review.
E1: Grantham Southern Gateway Strategy Employment Opportunity	Amount of new employment land committed or completed (by use class) on the Grantham Southern Gateway site in accordance with Policy E1. Amount of other employment generating uses committed or completed on the Grantham Southern Gateway site in accordance with Policy E1.	Development of Strategic Employment Site within the plan period.	Monitoring of planning commitments and completions, site visits.	Consider review of Employment evidence, including liaison with interested parties; and review of the policy through review of the plan.
E2: Strategic Employment Sites	Amount of new employment land (m ² /ha) committed or completed on Strategic Employment Sites as defined in Policy E2.	Development of Strategic Employment Sites within the plan period.	Monitoring of planning commitments and completions, site visits.	Consider review of Employment evidence, including liaison with interested parties; and review of the policy through review of the plan.
E3: Employment Allocations	Amount of new employment land (m ² /ha) committed or completed on allocated Employment Sites as defined in policy E3	Development of Employment land allocations within the plan period.	Monitoring of planning commitments and completions, site visits	Consider review of Employment evidence, including liaison with interested parties; and review of the policy through review of the plan.

Local Plan Monitoring and Implementation Framework

Policy	Indicator	Target	Source	Action and Contingencies
E4: Protection of Existing Employment Sites	Amount of land lost (m ² /ha) from existing employment sites as defined in policy E4.	No loss of Existing Employment sites as defined in policy E4	Monitoring of planning commitments and completions, site visits	Consider review of Employment evidence, including liaison with interested parties; and review of the policy through review of the plan.
E5: Expansion of Existing Businesses	Amount of new employment land permitted or completed (m ² /ha) resulting in the expansion of an existing building	Net expansion of existing businesses, where appropriate.	Monitoring of commitments and completions, site visits	Consider review of Employment evidence, including liaison with interested parties; and review of the policy through review of the plan.
E6: Loss of Employment Land and Buildings to Non-Employment Uses	Amount of employment land and buildings lost (m ² /ha) to non-employment uses.	No loss of Existing Employment sites as defined in policy E6	Monitoring of planning commitments and completions, site visits	Consider review of Employment evidence, including liaison with interested parties; and review of the policy through review of the plan.
E7: Rural Economy	Amount of rural employment land (m ² /ha) permitted for the uses defined in Policy E7, by location.	No rural development permitted contrary to Policy E7.	Monitoring of planning permissions and completions, site visits.	Consider review of the policy through review of the plan.
	Number of applications supported at appeal when citing this policy within reason for refusal			
E8: Other Employment Proposals	Amount of employment land (m ² /ha) permitted for the uses defined in Policy E8, by location.	No employment proposals permitted contrary to Policy E8.	Monitoring of planning permissions and completions, site visits	Consider review of the policy through review of the plan.
	Number of applications supported at appeal when citing this policy within reason for refusal			
E9: Visitor Economy	Number of new or improved (or committed) visitor economy type facilities by location.	No development proposals permitted contrary to Policy E9.	Monitoring of planning permissions and completions, site visits	Consider review of the policy through review of the plan.
	Number of applications supported at appeal when citing this policy within reason for refusal			
EN1: Landscape Character	Number of applications supported at appeal when citing this policy within reason for refusal	No applications approved contrary to Policy EN1 and supported at appeal. To ensure that development is appropriate to the	Monitoring of appeal decisions, site visits	Consider review of policy through review of the plan.

Local Plan Monitoring and Implementation Framework

Policy	Indicator	Target	Source	Action and Contingencies
		character and significant natural historic and cultural attributes and features of the landscape		
EN2: Protecting Biodiversity and Geodiversity	Change in areas of biodiversity importance including: <ul style="list-style-type: none"> Wildlife sites Candidate/potential Local Wildlife Sites Protected species record 	No net loss of designated wildlife sites or protected species.	Greater Lincolnshire Environment Partnership	Consider review of policy through early review of the plan.
	Number of applications supported at appeal when citing this policy within reason for refusal	No applications to be allowed which impact on nature consideration interests to ensure development minimises the impact of biodiversity and wildlife.	Monitoring of appeal decisions	Consider review of policy through early review of the plan.
EN3: Green Infrastructure	Number of applications refused planning permission contrary to EN3 and supported at appeal	No applications approved contrary to Policy or supported at appeal.	Monitoring of appeal decisions	Consider review of policy through early review of the plan.
EN4: Pollution Control	Number of applications refused planning permission contrary to EN4 and supported at appeal	No applications approved which would not on its own, or cumulatively lead to unacceptable levels of pollution.	Monitoring of appeal decisions	Consider review of policy through early review of the plan.
EN5: Reducing the Risk of Flooding	Number of planning permissions approved contrary to Environment Agency advice on flooding and water quality grounds	No applications to be allowed contrary to Environment Agency advice	Monitoring of planning permissions.	Consider the review of the policy through early review of the plan.
EN6: The Historic Environment	Number of applications refused in accordance with Policy EN6 and supported at appeal.	No applications approved contrary to Policy EN6	Monitoring of appeal decisions	Consider review of the policy through early review of the plan.

Local Plan Monitoring and Implementation Framework

Policy	Indicator	Target	Source	Action and Contingencies
EN7: Protection and Enhancing Grantham Canal	Applications permitted or completed that are designed to develop the canal's recreational, nature conservation, heritage and tourism appeal.	To enhance the Grantham Canal	Monitoring of permissions and completions	Consider review of the policy through early review of the plan.
	Number of applications refused in accordance with Policy EN7 and supported at appeal	To protect the alignment of the Grantham Canal as shown on the Policies Map.	Monitoring of appeal decisions	Consider review of policy through review of the plan.
DE1: Promoting Good Quality Design	Number of applications refused in accordance with Policy DE1 and supported at appeal	No applications approved contrary to Policy DE1 or supported at appeal	Monitoring of planning appeal decisions.	Identify reasons for lack of implementation. Consider review of the policy requirements of this and other policies where they prevent effective implementation of this policy.
	Percentage of new dwelling son sites of 10 dwellings or more being developed as 'Accessible and Adaptable' in line with the optional standards set out in Part M4(2) of the Building Regulations.	10% of new dwellings on sites of 10 dwellings or more to be developed as 'Accessible and Adaptable' in line with the optional standards as set out in Part M4(2) of the Building Regulations.	Monitoring of planning permissions and appeal decisions	Identify reasons for lack of implementation. Consider review of the policy requirements of this and other policies where they prevent effective implementation of this policy.
SB1: Sustainable Building	Number of applications refused in accordance with Policy SB1 and supported at appeal	All development proposals will be expected to mitigate against and adapt to climate change	Planning appeal decisions.	Identify reasons for lack of implementation. Consider review of the policy requirements of this and other policies where they prevent effective implementation of this policy.
OS1: Open Space	Number of applications refused in accordance with Policy SB1 and supported at appeal.	No net loss	Planning appeal decisions	Review reason(s) for the decision and if necessary review and amend policy.
RE1: Renewable Energy Generation	Number of applications refused in accordance with Policy RE1 and supported at appeal	No applications approved contrary to Policy or allowed at appeal.	Planning appeal decisions	Possible review and amendment of policy at Local Plan Review.
GR1: Protecting and Enhancing the Setting of Belton House and Park	Number of Planning Permissions and completions within the Buffer Zone set out in the Belton House and Park Study.	No planning permission granted which impacts (negatively) on the setting of Belton House and Park	Planning permission data.	Review reason(s) for the decision and if necessary review and amend policy. Consider publication of additional guidance or specific SPD.

Local Plan Monitoring and Implementation Framework

Policy	Indicator	Target	Source	Action and Contingencies
GR2: Sustainable Transport in Grantham	Contributions to necessary transport improvements and the delivery of the objectives of the Grantham Transport Strategy by appropriate development as defined in Policy GR2 either directly or indirectly through developer contributions	100% of eligible development to make necessary transport improvements and deliver the objectives of the Grantham Transport Strategy	Planning permission data and developer contributions	Possible review of policy through review of Local Plan.
GR3-H1: Spitalgate Heath – Garden Village (Southern Quadrant), Grantham	Number of housing commitments and completions each year, against the trajectory.	Deliver a total of 2000 homes by 2036	Housing commitments and completions	<p>Identify problem and barrier(s) to development via assessment and/or discussions with interested parties Bring sites forward in later phases of the plan period if appropriate, in accordance with 5 year housing land supply.</p> <p>Work with key partners, developers and landowners to facilitate and enable development (e.g. access to finance, including grants, renegotiation of S106). Consider whether a policy review is appropriate if targets are not being met after 3 consecutive years.</p>
