Historic Collection Performance

Commentary/Implications

It is extremely difficult to compare NNDR performance this year with no formal recovery actions since April 2020 compared to the council's usual activity last year.

As at 30th September, our collection rate was 54.97% which is £13,070,962 of the £24 million (roughly £2.18 million for each of the 6 months) which leaves £10,707,393 to collect between now and 31st March – which is £1.78 million per month.
