Members raised various questions and the responses were as follows:

It was noted that the majority of apprentices did stay on and enter into full time employment at the Council. Officers stated that specific data relating to this could be provided to Members.

- Whether there was a mandatory period of time apprentices would stay at the Council following the completion of an apprenticeship.

Members raised various questions and the responses were as follows:

A few weeks following the briefing, a formal report would be received which would be presented to Cabinet and then to Full Council. It was noted that an action planning session was due to take place in a week's time in order to develop a prioritisation framework. This framework would be presented to Employment Committee in January.

- Members spoke positively of the peer review, citing how it had highlighted the recent successes of SKDC as well as the challenges the organisation had faced. Members expressed support for holding a peer review on a regular basis going forward.
- A concern was raised that the Council was committing to too many plans, in relation to the recommendations in the peer review report.

The Leader noted that due to external factors such as the impact of COVID-19 and a reduction in funding from Central Government, the Council had had to prioritise its ambitions. It was noted that difficult decisions must be made at present in order to future proof the organisation.

The Chief Executive also noted that the Council had had to balance its plans with the funding and resources available. She noted that the new appraisal system was

key to delivering the Council's ambitions and would continue to be instrumental in ensuring the right resources and skill sets were available to do this. The Council's response to COVID-19 was commended and the level of change delivered during this period was highlighted.
