**1. Name and description of policy/service/function/strategy**

**General Fund Budget and Council Tax Setting 2022/23**

The budget proposals for 2022/23 contains a number of considerations that will result in potential changes to service delivery in specific areas. The impact of these potential changes will be considered as part of the decision making at the appropriate time.

The aim of the budget setting process is to establish the Council Tax base for the residents of South Kesteven for 2022/23. The Budget proposals are to financially support delivery of the Council's stated priorities and to enable the authority to deliver on specific service policies. The budget provides a financial framework for Council Tax setting purposes for the financial year 2022/23 taking into account the council's overall financial position and service delivery requirements.

The Council is currently considering options for annual Council Tax increases per a Band D property in 2022/23. These options are detailed below:

- 0% Council Tax Increase
- £5 Council Tax Increase

Depending on the option chosen, the level of increase will vary dependent on the property type; the council tax increase in properties in bands A to C will be less than a Band D property while the increase in Bands E to H will be greater.

**HRA Rent Setting 2022/23**

HRA Rent Setting is set in line with Government Guidance. The Government directive will see a majority of dwelling rents increasing by 1%+CPI which equates to an average increase of £3.28 per week. However this excludes the following rents in relation to garages, service charges and shared ownership where it is proposed to increase the charges by a flat 3%.

Is this a new or existing policy? Annual

<b>Age</b>	Where there are increases in rent and other charges there is a potential for a negative impact.	Any rent increase has an impact on the individual however the requirement to review charges is not determined by protected characteristic.

<b>Other Groups (e.g. those from deprived (IMD*) communities; those from rural communities, those with an offending past)</b>  *(IMD = Indices of multiple deprivation)	Where there are increases in rent and other charges there is a potential for a negative impact.	Inevitably social housing is generally occupied by people who receive lower levels of income who will therefore be impacted by any level of rent increase unless their rent is fully covered by the level of housing benefit received.  To help mitigate this potential impact advice and support is available through the housing

		services and other agencies to assist tenants sustain their tenancies.
<b>General comments</b>	The Council is following Government guidance. The actual rent is calculated on a property by property basis so it is not possible to provide a specific comment as each impact will vary on an individual basis. There is a potential for a negative impact for a number of tenants who will be affected by the increases. The Council will respond to any adverse impact by promotion of Discretionary Housing Payments and other benefit support.	

**3. What equality data/information did you use to inform the outcomes of the proposed policy/service/function/strategy? (Note any relevant consultation who took part and key findings)**

**General Fund Budget and Council Tax Setting 2022/23**

Consultation is currently being undertaken on the proposals to increase Council Tax with the local community using local media and website promotion.

The Local Council Tax Support Scheme mitigates the impact on those residents considered to be most vulnerable. As the payments for Council Tax support is demand-led the Local Scheme the Council has adopted does not limit the number of awards if residents are eligible for benefit.

**HRA Rent Setting 2022/23**

We follow Government Guidance when setting rent levels.

In circumstances where there is a negative impact there is arrange of financial support available.

**If there are any gaps in the consultation/monitoring data, how will this be addressed?**

None identified

**4. Outcomes of analysis and recommendations (please note you will be required to provide evidence to support the recommendations made):**

**b.1 In brief, what changes are you planning to make to your proposed policy/service/function/strategy to minimise or eliminate the negative equality impacts?**

--

**b.2 Please provide details of whom you will consult on the proposed changes and if you do not plan to consult, please provide the rationale behind that decision.**

--

***If you have checked option b) you will need to complete a Stage 2 equality analysis***

**c.1 Please provide an explanation in the box below that clearly sets out your justification for continuing with the proposed policy/function/service/strategy.**

**General Fund Budget and Council Tax Setting 2022/23**

The Council Tax proposals for 22/23 are recommended in the context of maintaining quality services to our residents. The additional council tax income received will enable to council to achieve a balanced budget without any service reductions that could adversely effect our

residents. Should any resident suffer financial difficulties as a result of the proposal then there is a range of financial support packages that the Council will provide.

**HRA Rent Setting 2022/23**

There is a legal requirement to maintain a financially sustainable housing revenue account. A key element of achieving this is to follow national rent setting guidance which will ensure that income levels are maintained sufficiently to meet the expenditure demands of the service. Should any tenant suffer financial difficulties as a result of the proposal then there is a range of financial support packages that the Council will provide.

***If you have checked option c) you will need to complete a Stage 2 equality analysis. You should consider in stage 2 whether there are sufficient plans to reduce the negative impact and/or plans to monitor the actual impact.***
