<p>Risk Description This risk focuses on the potential for failure of the Council’s core internal control (and governance) framework but leading to a significant loss ie financial and otherwise eg H&S failing.</p> <p>In effect the Council should be able to mitigate such a risk through rigorous review of design and application of the controls, hence ensuring that internal audit and other assurance activities are appropriately focussed.</p> <p>The Council is entering a changing phase including changes in behaviour, management structure, working styles and culture which will require a flexible and adaptive internal control environment.</p> <p>The ramifications of a significant control risk failure are substantial, not only with regard to the loss but often the rectification costs post event, including financial and reputational.</p> <p>Effects of Risk Realisation</p> <ul style="list-style-type: none"> - Potential for fraud, error and loss - Reduced financial stability - Reputation damage resulting in negative media attention - Potential for harm/injury/death - Qualified External Audit Opinion/Internal Audit Opinion - Regulatory non-compliance (GDPR, HSE) and potential for government intervention <p>Current Circumstances An internal audit review of housing compliance in March 2021 resulted in a negative opinion being provided, leading to the Council making a self-referral to the Regulator of Social Housing for breaches of the Homes Standard. An action plan has been implemented to address the matters raised and the Council should be in a position of broad compliance in terms of landlord health and safety by the end of March 2022, although further actions will follow.
