COUNCIL

New biodiversity duties

- The Environment Act 2021 requires all public authorities in England to consider what they do to conserve and enhance biodiversity.
- There is a need to consider and report on what action SKDC intends to take for biodiversity, **no later than 1 January 2024**.
- Following this initial consideration, SKDC must agree policies and objectives, take action, and prepare the first formal Biodiversity Report no later than 1 January 2026.
- An update on local authority biodiversity duties is due to go to the Environment OSC meeting on 12th December.
- Ensuring biodiversity action becomes routine within Council working will involve multiple departments.
- New expectations for Biodiversity Net Gain for new developments

What we want to achieve in 2024

Biodiversity Action Plan	Tree and Woodland Strategy
<ul style="list-style-type: none">• Understand current health of the natural environment in the district and areas of improvement• Set out SKDC's remit to influence the natural environment and improve biodiversity• Consider our role as Planning Authority and new expectations for Biodiversity Net Gain (BNG) for new developments• Consider our role as local authority and specific actions and projects we intend to implement to improve biodiversity	<ul style="list-style-type: none">• Understand current extent of tree canopy cover across the district and best areas for any further tree planting• Set out SKDC's remit to directly plant more trees and develop woodland areas• Set out how we intend to engage with wider partners to facilitate tree planting opportunities in the whole district• Enhance the benefits trees provide and ensure trees are well managed
